ELAF TM
ENGINEERING

We ARE

ROOTED IN OUR ARAB HERITAGE

SINCE 2020

700

PROJECT
OVER
4 YEARS

WHO WE ARE

An integrated engineering services company specializing in architectural , structure design , Bim solution , Interiors , urban planning , and MEP design .

We proudly serve a wide range of sectors , including industrial , distribution , manufacturing , office , retail Recreational , healthcare , and commercial projects across Egypt and the Gulf region

OUR BRAND HEART

The brand heart serves as the foundation for creating a consistent and authentic brand experience . It helps build trust with customers , unify internal teams , and differentiate the brand in the marketplace .

Brand Vision :

Is to be the most trusted strategic partner that enhances value for real estate developers and property owners, empowering them to maximize their potential.

We aim to be the most trusted strategic partner in engineering, shaping a future where exceptional design and enduring value define every project we touch.

Brand Mission :

We provide integrated, human-centric engineering solutions by focusing on cost-efficient and sustainable design, to create safe and comfortable living spaces that improve quality of life.

Brand Purpose :

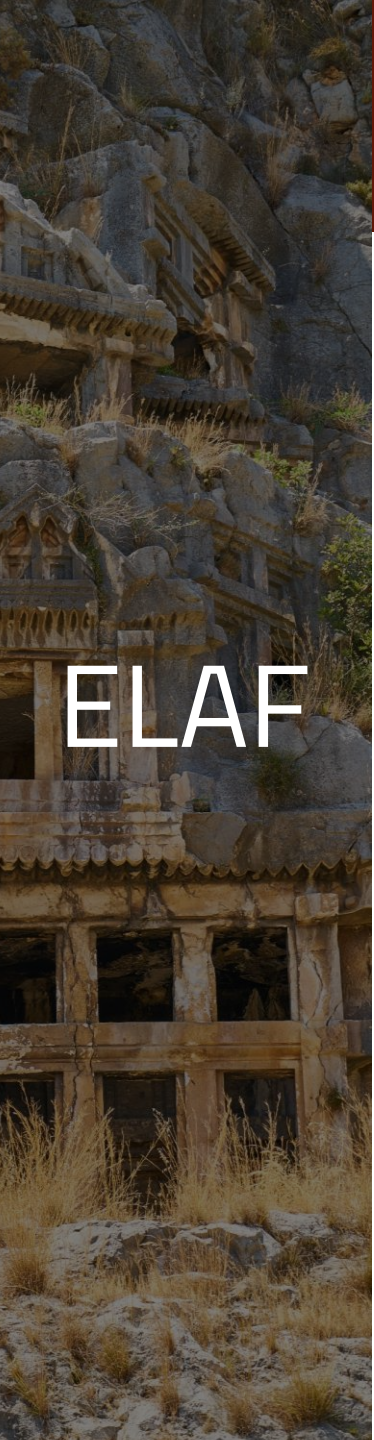

Improving people's lives and contributing positively to the construction and development industry.

Brand Promise :

To build trust, inspire innovation, and create sustainable value for generations by delivering exceptional engineering solutions that improve lives.

How to use it :

Align every project and service whether it's architectural design , structural design , MEP or BIM solutions around this central purpose . This ensures that your entire company works towards a shared vision and communicates your long-term impact on society

OUR BRAND VALUES

Build Trust :

We build trust through transparency, ethical practices, and professionalism.

Innovative :

We continuously adopt cutting-edge engineering methods and technologies.

Quality in Everything :

Excellence is at the core of what we do in every design, process, and delivery.

Good Listener :

We prioritize customer satisfaction through customized solutions and open communication.

Working Together :

We foster a culture of teamwork, both within our organization and with our clients, to ensure seamless project execution.

Cultural Proud :

Rooted in our Arab heritage, we rely on endurance and patience to overcome the challenges we face.

OUR BRAND VALUES

Brand Story :

Elaf was born from a vision deeply rooted in Arab culture, a legacy of endurance, unity, and ambition. Like the caravans of old that crossed vast deserts in pursuit of trade and connection, we navigate the complex terrain of engineering with perseverance and innovation.

Elaf symbolizes trust and collaboration, derived from the spirit of community and mutual support. At Elaf, we are more than just engineers; we are partners in progress. We design with purpose, striving to create spaces where people can live, work, and thrive. Every project is a reflection of our commitment to quality, efficiency, and the enduring values that guide us.

Through challenges and triumphs, we remain steadfast in our mission to deliver innovative solutions that improve lives. With every structure we design and every relationship we build, we honor our heritage while forging a future of sustainability and excellence.

Company Services

ELAF

01 Architectural design

Designing spaces that inspire and endure.

02 Structural Design

Strength in every foundation we build.

03 BIM Solutions

Smart modeling, smarter construction

04 Mechanical & Plumbing design

Mechanical drawings are detailed representations of mechanical components and systems

05 Electrical diagrams

Electrical diagrams are visual representations of electrical systems and circuits.

06 Interior and exterior design

Both disciplines aim to create functional, beautiful spaces that meet the needs and preferences of their users.

07 Urban Planning

Shaping sustainable and livable communities for the future.

08 Shop Drawing

shop drawings are essential for bridging the gap between design and construction

09 Landscape design

landscape design aims to create functional, sustainable, and visually appealing outdoor environments that enhance the quality of life

10 Quantity survey

Quantity surveying is a profession within the construction industry that focuses on the management of project costs

SERVICES PROVIDED BY ELAF COMPANY

ELAF ENGINEERING SERVICES COMPANY PROVIDES A VARIETY OF SERVICES THAT MEET THE NEEDS OF OUR CLIENTS IN THE FIELDS OF DESIGN AND ENGINEERING. BELOW ARE DETAILS OF THE SERVICES WE PROVIDE

تقدم شركة إيلاف للخدمات الهندسية مجموعة متنوعة من الخدمات التي تلبي احتياجات عملائنا في مجالات التصميم والهندسة. فيما يلي تفاصيل عن الخدمات التي نقدمها

EXTERIOR DESIGN MALL KHAMEES MUSHIT

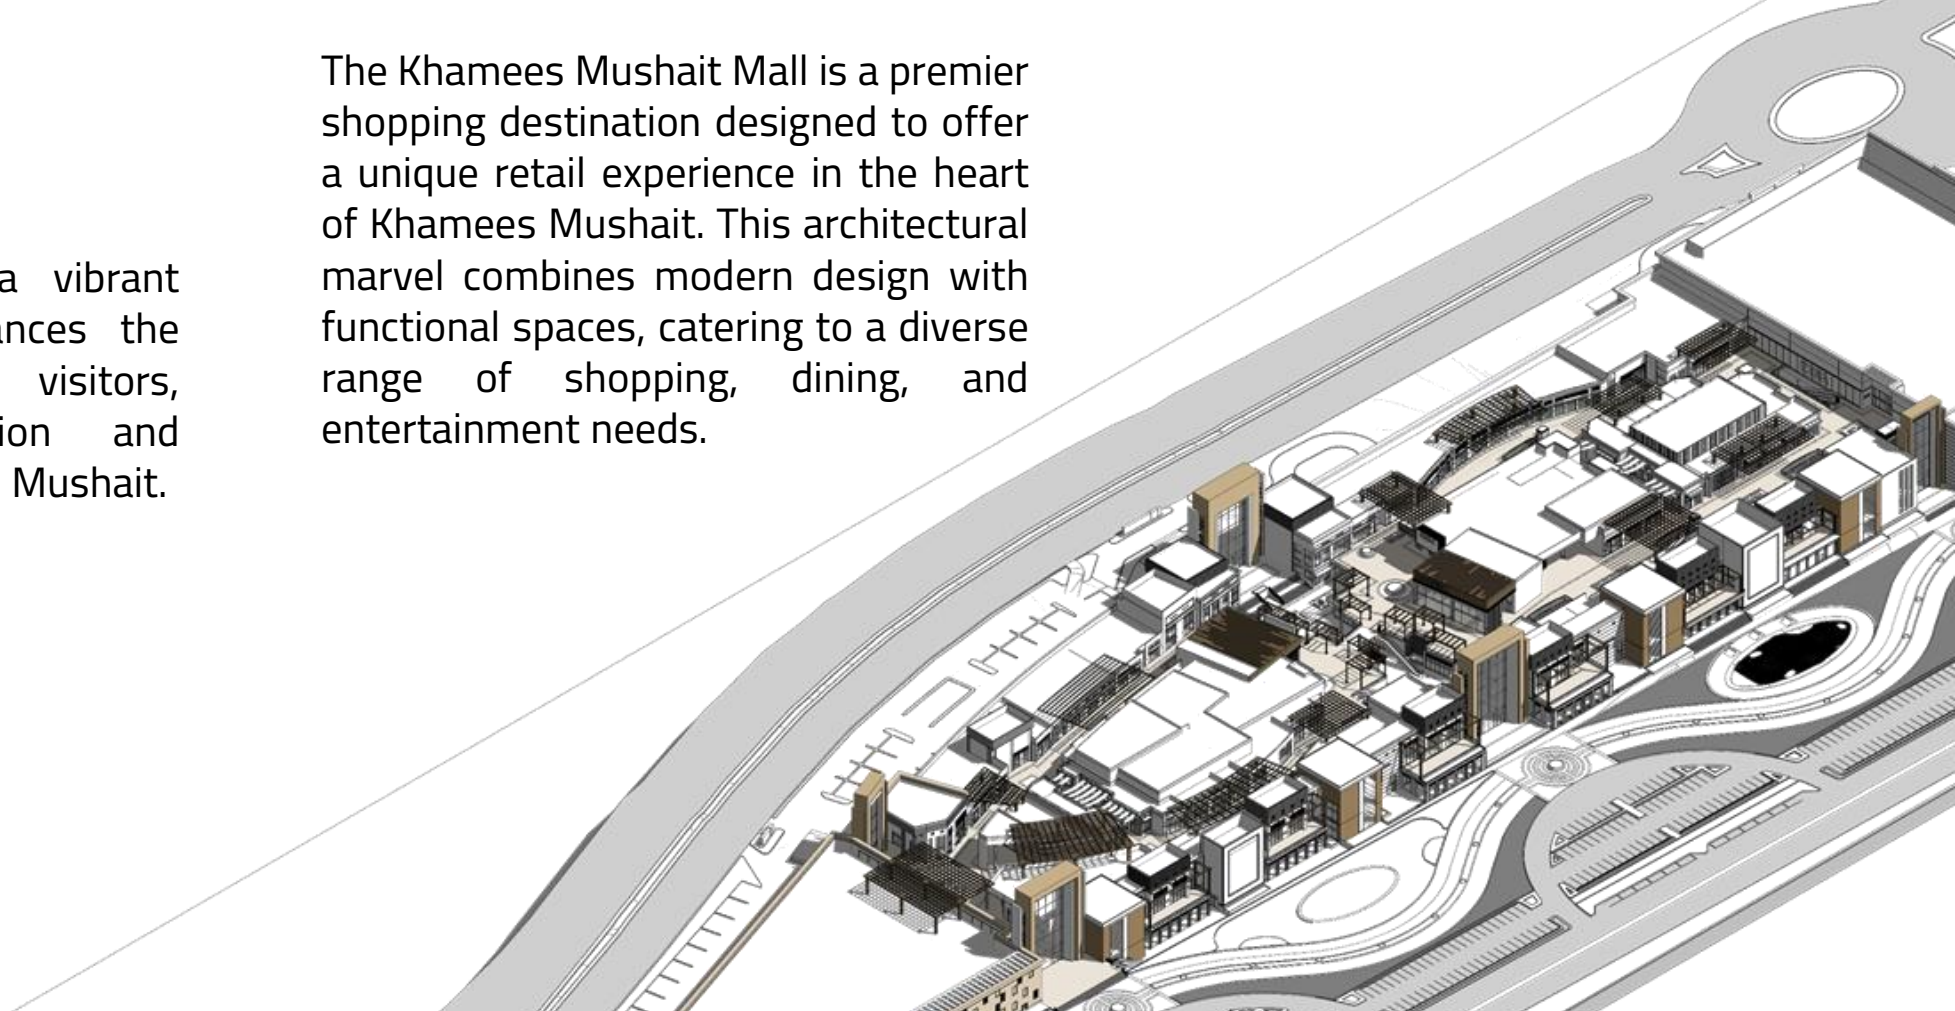

Location :- Saudi Arabia

Area :- 85000 m2

Vision:

Our vision is to create a vibrant community hub that enhances the lifestyle of residents and visitors, fostering social interaction and economic growth in Khamees Mushait.

The Khamees Mushait Mall is a premier shopping destination designed to offer a unique retail experience in the heart of Khamees Mushait. This architectural marvel combines modern design with functional spaces, catering to a diverse range of shopping, dining, and entertainment needs.

NIGHT MODE SHOTE

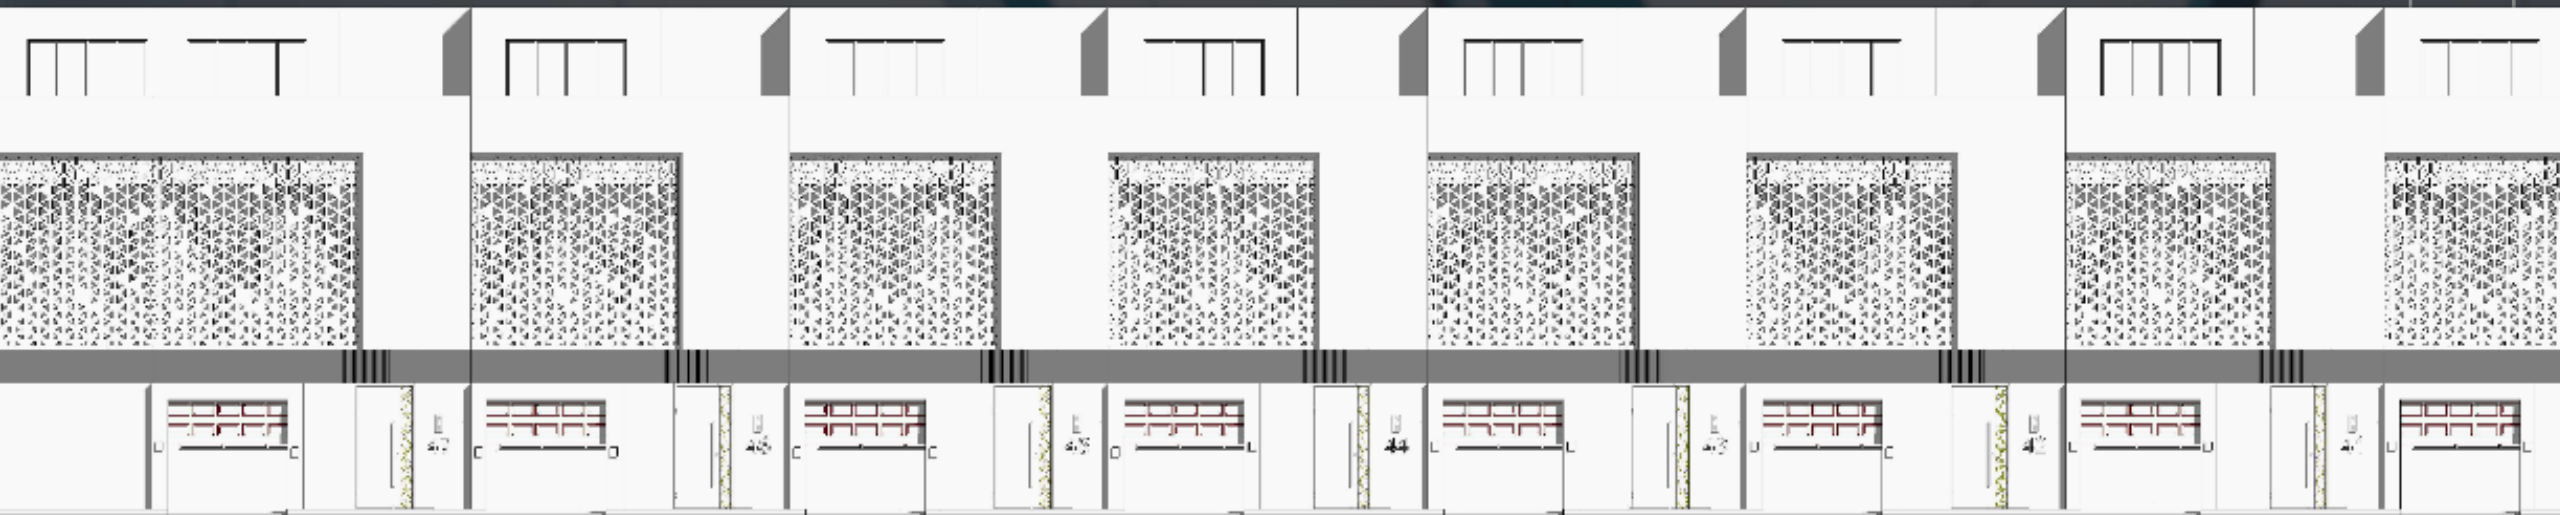

Exterior Compound Design

Location :- Riyadh
Area :- 3200 m2

Welcome to our exclusive residential compound, thoughtfully designed to provide a luxurious and comfortable living experience in the heart of Riyadh. Spanning an impressive area of 3,200 square meters, this compound combines modern architecture with functional living spaces.

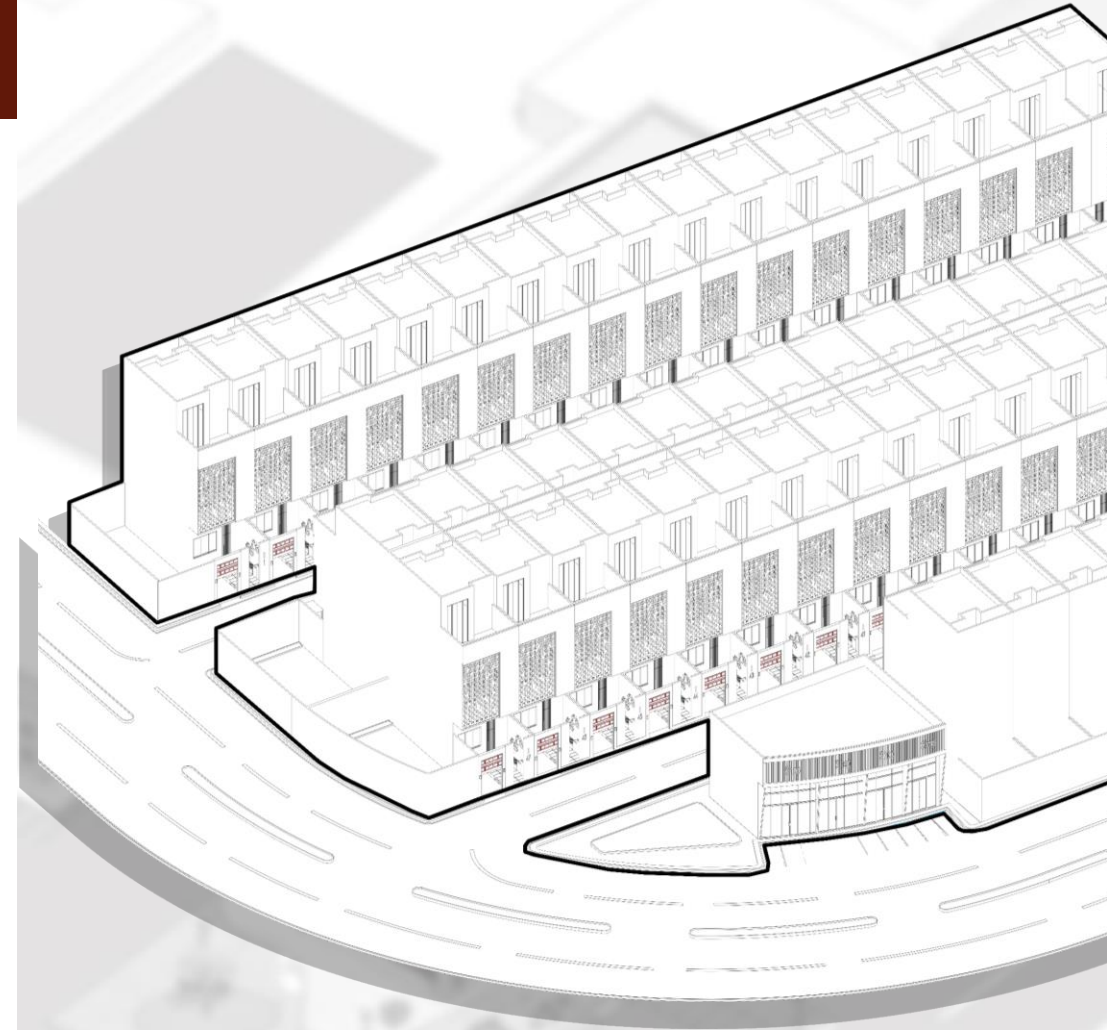

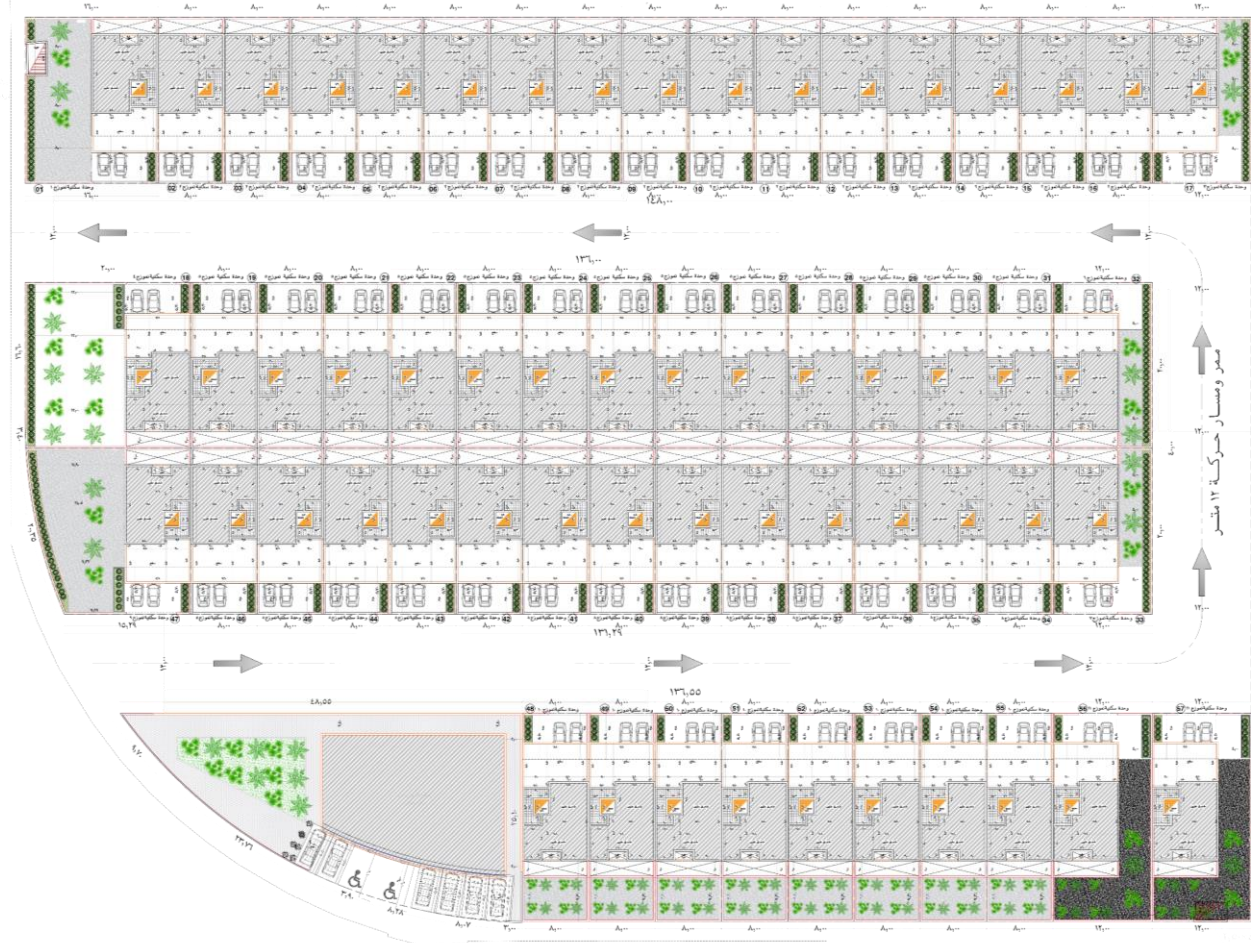

Vision:

Our vision for this residential compound in Riyadh is to create a harmonious living environment that blends modern design with comfort and community. Spanning 3,200 square meters, the compound aims to offer residents a serene escape from the bustling city life while providing all the amenities needed for a vibrant lifestyle.

Coordination , BIM Manager Mechanical Design Engineer

I am fully responsible for the creation, planning, implementation, and integration of the strategic direction of the organization. It falls upon me to bear full responsibility in setting the strategic vision of the institution and developing the necessary plans to achieve it, as well as effectively executing these plans and seamlessly integrating them into the operations of the organization. This requires the ability to analyze data and current trends, extract key insights, and identify appropriate strategic goals and steps. Additionally, I must collaborate with key teams within the organization, guiding and aligning them to ensure the successful implementation of the strategy. Overall, I manage all aspects of strategic work and make appropriate decisions to achieve the vision and goals of the institution.
